Mr. Justice,

I will follow up on this request as well as provide data from prior requests as they become available.

Thank you,

Best regards,

Subject: RE: Requested Sample Data

Good Morning Joe,

Hope you had a good weekend.

Thank you for the summaries. Can I ask a favor can I get an overall map of all the surface water sampling locations. One for those near the pad and adjacent tributary and then a wider one showing downstream locations on the tributary, Opossum Creek and the Ohio River. I cannot find some of the sample locations with hits on the maps included in this file.

Thank you,

JJ Justice

Subject: Requested Sample Data

Mr. Justice,

As you specifically requested, attached is the latest sampling data available which includes outflow data from the rain event on 7/27 as well as TTPC results, the method intended to investigate biocide.

Note that results from the rain-event water samples indicate that acetone and chloride concentrations were below their respective screening values in the surface water collected from Outflows 1, 2, and 5 on 7/27.

Please let me know if you have any questions.

Best regards,

Joe Swearman
